

CHRIST CARL U. TAPAT

Construction Virtual Assistant | Civil Engineer | Remote Estimator | Take-off Specialist

 +639625406989 |  engr.christcarl@gmail.com |  Philippines

PROFESSIONAL SUMMARY

Civil Engineering professional transitioning into Construction VA and Estimating, with training in Construction VA, PlanSwift, and Bluebeam. Skilled in quantity take-offs, BOQ preparation, cost estimating, and reading construction drawings. I am organized, detail-oriented, and focused on accuracy. Proficient in Microsoft Office, Google Workspace, Canva, and Zoom, with a strong willingness to learn and provide reliable remote support. Seeking an entry-level Construction Estimator, Take-Off Specialist, or Construction VA role supporting US or Australian-based projects.

CORE COMPETENCIES

Cost Estimation & Tendering	Quantity Take-off	Scheduling & Coordination
Construction Documentation	BOQ Preparation	Read & Interpret Plans
Remote Collaboration	Cost Optimization	Project Tracking

PROFESSIONAL EXPERIENCE & TRAINING

DEEPBLUEE SWIMMING POOL BUILDERS (November 2022 – December 2025)

- Prepared architectural, structural, plumbing, and electrical construction drawings using AutoCAD and Sketchup software
- Prepared cost estimates for 60+ projects, including BOQs and detailed quantity take-offs using PlanSwift
- Integrated ChatGPT and Gemini into daily workflows for estimation, procurement, and documentation tasks
- Prepared Request for Approval, Request for Information, concrete pouring requests, cutting lists, and other essential project documentation.
- Performed various roles in Planning, Estimating, Costing, and Site Engineering in 3 years.

AUSTRALIAN RESIDENTIAL COST ESTIMATE TRAINING

- Practiced preparing BOQs and detailed quantity take-offs from complete residential construction drawings.
- Used PlanSwift and Bluebeam to measure areas, lengths, quantities, and materials for estimating exercises.
- Reviewed drawings and project scopes to determine trade requirements and material quantities.
- Prepared basic cost and pricing summaries based on sample residential projects.
- Analyzed sample subcontractor quotes and pricing to check quantities and support estimate accuracy.

TOOLS & SOFTWARES

Estimating & Quantity Take-Off: PlanSwift, Bluebeam Revu, AutoCAD

Communication & Collaboration: Zoom, Google Meet, Microsoft Teams, WhatsApp, Gmail

Documentation & Productivity: Microsoft Excel, Word, PowerPoint, Google Drive, Google Calendar, Canva
